Prices. The prices given in this list, we believe, represent a fair value for such high grade stock as we always endeavor to supply.

CONDITIONS OF SALE

Terms. Cash with order or satisfactory references from strangers.

Postage stamps will be found a convenient method of remitting for small amounts and can be used by us to advantage.

When goods are to be shipped via Parcels Post, please add cost for postage.

A DISCOUNT OF 5 PER CENT IS ALLOWED WHEN CASH ACCOMPANIES ORDER.

Note. At the prices given in this list we will guarantee to furnish strictly first-class stock of the size and ages named, but as our prices are low, and as it is impossible for us to guarantee the life of a plant after it leaves our hands, we cannot replace free any stock which may fail to grow. If a guarantee for one year is desired, add 20 per cent to the list price.

We give no warranty expressed or implied as to description, quality, productiveness or any other matter of any Nursery Stock, Bulbs or Plants we sell. No complaints will be considered that are not made within five days after receipt of stock.

THE NEW ENGLAND NURSERIES CO. Bedford, Mass.

Time for Planting. All hardy trees and plants of any description can be safely transplanted in the Spring as soon as frost leaves the ground, and usually as late as about June 1st. Also during the period beginning September 15th and continuing until the ground becomes frozen. Evergreen trees and shrubs can further be safely handled during August.

While we give our best efforts to produce and furnish high grade trees and plants, and do not attempt to pose as landscape architects, we are always happy to give such assistance as we can to customers in making the proper selection of what to plant, and advice as to the care of plants, and we respectfully invite correspondence pertaining to problems of interest to planters.

NEW ENGLAND NURSERIES CO.

BEDFORD, MASSACHUSETTS

Pruning. In order to encourage a healthy growth, and also to assist plants in becoming re-established, all deciduous stock should be pruned back at once after being transplanted. Roses should be cut back to within 4 to 5 inches of the ground. From deciduous trees and shrubs, one-third to one-half of the growth from the previous summer should be removed. All cutting back, or pruning, should be done immediately after plants have been set.

The sizes of trees and shrubs named in the following pages are such as are usually preferred by planters. If desired we can generally supply larger or smaller sizes and will quote prices on application.

All stock selected and marked by customer at the Nursery will be charged for in accordance with its value. Prices in this list will **not** govern such stock.

It is our desire that all stock purchased of us shall give the best of satisfaction and our interest does not cease when goods are shipped or payments collected. We ask that all will feel free in calling or writing us pertaining to any assistance we can give, —not only before an order is given, but afterwards as well.

Facilities are maintained for supplying plans and estimates for all kinds of landscape work.

Location of our Nurseries. Located 15 miles from Boston, 12 miles from Lowell, 3 miles from Concord, and 5 miles from Lexington, our Nurseries can be reached via Boston & Maine trains from the North Station, Boston, or via electric cars from Arlington Heights. The cars connecting Arlington Heights and Concord pass directly through our property.

Visitors are always cordially welcome, but we ask the indulgence of parties calling during our busy Spring and Fall months, when it is quite impossible for us to devote as much time as we should wish in showing our Nurseries. The most courteous treatment possible, however, will always be given to those who favor us by calling.

The stock offered in this list is, we believe, absolutely free from all injurious insects or diseases, and all shipments are accompanied by **CERTIFICATE OF INSPECTION**, both State and Federal.

Note: We have no Agents.

Gold Medal Evergreen Trees

The quality of our evergreens is unexcelled, and having been started and grown in Bedford, and under the most severe climatic conditions, they are not to be compared with such plants as in former years were imported from Europe.

Evergreens for Forest-Planting

We will be pleased to quote on young evergreens suitable for reforestation. Note: White Pines can be shipped only to points in Massachusetts and Rhode Island.

Hardy Evergreen Shrubs, Plants and Vines

Evergreen shrubs, like Evergreen Trees, transplant well in the Spring as soon as the ground is open, and generally as late as June 1st. Also during the period beginning August 1st, and continuing until the ground becomes frozen.

Andromeda catesbei (See *Leucothoe catesbei*)

“ **floribunda** (Lily of the Valley Shrub)

White 12 to 15 in. \$2.50

polifolia (Moorwort)

8 to 12 in. 1.50

Berberis aquifolia (See *Mahonia*)

BUXUS.—Boxwood

Buxus. Bush Form (Bush Box.)

	Each	Dozen	100
3 to 4 in.		1.50	12.00
4 to 6 in.40	2.50	20.00
8 in. bushy80	8.00	60.00

The Bush Box is useful for window boxes or for bordering flower beds or walks.

CULLUNA.—Heather

Calluna vulgaris alba (White)75

Calluna vulgaris rosea (Pink)75

Calluna vulgaris aurea (Golden leaved) 1.00

Cotoneaster Horizontalis. A rare, but very beautiful and useful low and spreading shrub with dense glossy foliage and showy scarlet berries in Autumn. Excellent for covering slopes or for bordering beds of evergreen, 2 years 1.00 10.00

C. var. Wilsoni. A newer introduction from China, with habits much similar to the above. 2 years 1.25 12.50

Daphne cneorum (Garland Flower)
2 years75 7.50

Euonymus radicans (Creeping Euonymus)
2 yrs.35 3.50 20.00

“ **var. Carrieri.** Large, glossy and pointed leaves. A fine evergreen vine. Good for covering rocks, tree-trunks or brick walls, or can be grown as a low shrub in front of dwarf evergreens.

2 years50 5.00

15 to 18 inches.....	.35	3.25	30.00
6 to 8 inches.....			8.00

Berberis var. Nana (Dwarf or Box-Barberry)

A new low and very dense growing variety of great hardiness. Grows about 18 inches high. Plants set about 5 inches apart form a thick, even and very attractive edging for formal gardens or borders. Like the type, it is covered with bright fruit in Winter and its foliage is of a pleasing yellow and red in Autumn.

3 to 6 inches.....	2.00	15.00	
vulgaris (Common Barberry)			
12 to 18 inches.....	.50	5.00	25.00
var. purpurea (Purple Barberry)			
12 to 18 inches.....	.50	5.00	30.00

Buddleia magnifica (Butterfly-bush)

Flowers throughout the Summer, producing long, gracefully arching flower spikes in light blue and lavender. A beautiful shrub growing about 4 ft. high. Requires some protection in Winter. Cut back to the ground each Spring.

One year old plants 50 cents each.

Calycanthus Floridus (Pine-apple Bush or Carolina Allspice) Chocolate Brown.

2 to 3 ft.....	.50	5.00	
----------------	-----	------	--

Caragana arborescens (Siberian Pea-tree)

An upright growing shrub of great beauty. Bright yellow flowers in clusters. Though dwarfier in growth, it resembles much the Scotch Laburnum. Flowers in May.

3 to 4 ft.....	.50	5.00	30.00

Reliably Hardy Roses

Cultural Directions

Planting. Dormant plants may be set out during April and May, or in October and November. The plants should be inserted into the ground so deeply that the collar is at least four inches below the surface, and after carefully spreading the roots, the soil should be firmly compacted.

Watering and Mulching. At once after planting apply a thorough watering, and during a dry season, a mulch with strawy manure will prove beneficial.

Pruning. All roses, even the Climbing varieties, should be severely pruned back at once after being planted, and regardless of the size of the plants, each shoot should be cut back to within from three to five buds or eyes from the ground. Failures of Roses to succeed after transplanting are generally due to disregard of rules pertaining to deep planting and close pruning.

HYBRID PERPETUAL ROSES

Strong, Dormant and Field-Grown Plants

Price: Each 75 cents; dozen \$7.50; per hundred \$65.00, except where otherwise noted.

The following named Hybrid Perpetual Roses can be relied upon for hardiness. If planted in good soil, set in the ground to the proper depth, and pruned back as directed, they will produce quantities of bloom the first season. Deep planting and close pruning is very essential.

Alfred Colomb. Carmine Red; very large and full.

American Beauty. Deep Pink, shaded with Carmine.

Anne de Diesbach. Clear bright rose; large and fragrant.

NEW ENGLAND NURSERIES CO.

BEDFORD, MASSACHUSETTS

RELIABLY HARDY ROSES (continued)

- Coquette des Alpes.** Large, full and well-formed with very large petals. Lovely pure white in color; fragrant; profuse bloomer; hardy.

- Orphelia.** One of the best new Roses. Salmon flesh, shaded with rose.

HARDY "POT-GROWN" ROSES FOR SUMMER PLANTING

Dormant Roses should not be planted in the Spring later than about May 15th. Many of our customers, however, wish to replenish their rose gardens during June or later, and we have made arrangements with a firm of Rose specialists, to supply us after June 1st, with strong pot-grown and flowering sized plants for late or Summer planting. A general list of varieties in "pot grown plants" will be supplied upon request.

MOSS ROSES

Price: Each, 75 cents; dozen \$7.50

- Crested Moss.** Deep Pink, buds surrounded with mossy fringe and crest.

CLIMBING AND RAMBLER ROSES

Plant very deeply, and regardless of length of branches, prune back at once after planting to within 5 or 6 inches of the ground.

HARDY HERBACEOUS PERENNIALS (continued)

General List of Silver Medal Herbaceous Perennials

Price, except where otherwise noted, each, 25 cents. Dozen, \$2.50; per 100, \$20.00. (6 Plants of one kind, supplied at price per dozen.)

Achillea ptarmica var. "The Pearl". (Double Sneezewort). Pure White. June to October. 1½ to 2½ feet. Profuse bloomer and excellent for cutting.

Agrostemma coronia (Dusty Miller). Crimson. 1 to 2 feet. June to July.

Ajuga reptans (Bugle). Blue. 3 to 4 inches. May to June.

ALTHAE ROSEA—The Hollyhocks

Few hardy plants are more worthy of cultivation than the Hollyhocks. For interspersing among shrubbery, or planting in rows back of lower growing plants, they are invaluable. They thrive in any good soil. A slight protection in Winter is beneficial. Finest mixed. Also Double red, pink, white and yellow.

Anshusa Italica (Alkanet). Blue. 3 to 4 feet. May to June.

Anthemis tinctoria (Golden Marguerite). Yellow. 2 to 3 feet. May to October. Flowers persistently; is good for cutting and easy of cultivation.

THE ANEMONES

Anemone Japonica (Japanese Windflower). 2 to 4 feet. September to November.

var. **Lady Ardilaun**. Semi-double. White. 2 to 3 feet. August to October. A very robust form of the above, with large, massive foliage.

var. **Queen Charlotte**. Semi-double. Silver Pink. 2 to 2½ feet. Flowers last well when out. Very hardy.

var. **Whirlwind**. Double White. 2 to 3 feet. September to November.

Pennsylvanicum (Canada Windflower). White. 1 to 2 feet. May to July.

Sylvestris (Snowdrop Anemone). White. 1 to 2 feet. April and May.

THE ASTERS—Michaelmas Daisies

Aster Lady Trevelyan. White. 4 feet. August and September. Very ornamental and showy.

" **Novae-Angliae** (New England Aster). Purple. 3 to 5 feet. August and September.

" var. **roseus**. 4 feet. A most charming variety of the above with all shades of rose and crimson.

" **Mrs. Mansfield**. A variety of striking beauty. Flowers are fully an inch across and persist until severe frosts. Dark purple with dark velvety, golden brown center. 3 to 4 ft. New. Each 35 cents.

" **Novelty**. Small bright lavender flowers in greatest profusion. One of the finest. 2½ to 3 ft. New. Each 35 cents.

" **spectabilis var Nenco**. Deep Lavender. Individual flowers 2 inches across. Excellent for cutting. 2½ to 3 feet. September.

Astilbe. (See Spiraea.)

Baptisia Australis (False Indigo). Blue. 4 feet. May and June. Very showy and of easy cultivation.

NEW ENGLAND NURSERIES CO.

BEDFORD; MASSACHUSETTS

HARDY HERBACEOUS PERENNIALS (continued)

Price: Except where otherwise noted, Each, 25 cents. Dozen, \$2.50; Per 100, \$20.00. (6 Plants of one kind supplied at the price per dozen.)

THE COLUMBINES

- Aquilegia Californica hybrida** (California Columbine). Various Colors. 1 to 2 feet. May to July.
- Arabis albidia** (White Rock Cress). White. 6 to 8 inches. April to June. Fragrant. A valuable plant for the border.
- Arenaria Balearica**. 4 inches. Of moss-like growth and suitable for rock-work. White flowers.
- Armeria maritima** (Cushion Pink). Pink. 3 to 6 inches. May to June.
- var. robusta**. Large Crimson flowers on stems 6 to 8 inches long. Produced all through the summer. Very useful for edging and good for cutting.
- Artemisia Dracunculus** (Tarragon). White. 2 feet.
- frigida** (Small Southernwood). 8 to 12 inches. Whitish, fern-like, fragrant foliage. Most easy of cultivation.
- Stelleriana** (Old Woman). Yellow. Silvery foliage and flowers in racemes 2 feet.
- Asolepis tuberosa** (Butterfly Weed). Red-orange. 2 to 2½ feet, July. Very showy and of easy culture.
- Betonica** (See Stachys).
- Bocconia cordata** (Plume Poppy). White. 3 to 5 feet. July and August. Good for sub-tropical effects.
- Boltonia asteroides** (False Chamomile). White. 4 to 5 feet. September and October. One of the best late-flowering perennials.
- latisquama**. Pinkish Lavender. 4 to 5 feet. July to October. Worthy of a place in every garden.
- Oassia Marylandica** (Wild Senna). Yellow. 3 to 4 feet. July to September.

CAMPANULA—Bluebells

- Campanula Calycanthema** (Cup and Saucer). A well known and most beautiful variety of Campanula, flowering in July. We offer plants in white, pink and blue, and in sizes to bloom the first season. Should be given light protection in Winter.
- media** (Canterbury Bell). 1½ to 4 feet high. Late June and July. Flowers blue, white, and rose, Corolla very large and bell shaped; bright and attractive.
- Pyramidalis** (Chimney Bell). Blue, 4 to 5 feet. July and August. Requires protection in Winter.
- Cerastium Boissierii** (Mouse Ear). White. 10 to 12 inches. June. Silvery foliage. A good border plant.
- Chelone Lyoni** (Turtle Head). Red. 2 to 2½ feet. August. A most useful and handsome plant.
- Chrysanthemum leucanthemum hybridum** (Shasta Daisy). A variety remarkable for its prolific flowering qualities, as it can be relied upon to bloom constantly from June until frost.

ASTER-FLOWERED HARDY CHRYSANTHEMUMS

In colors of White, Pink, Yellow and Bronze or Red.
Flower freely from September 1st and until heavy frosts.

NEW ENGLAND NURSERIES CO.

BEDFORD, MASSACHUSETTS

HARDY HERBACEOUS PERENNIALS (continued)

Dianthus barbatus (Sweet William). In mixed colors of pink, crimson, white, pink and white. 1 to 1½ feet. July.

deltoides (Maiden Pink). Deep Pink. 6 to 9 inches. May and June.

plumarius (Grass Pink). 1 foot. May and June. Fragrant flowers with fringed petals.

var. semperficiens (Homestead Pink). Pink. 1 foot. May to August. Very fragrant and free flowering.

Dicentra spectabilis (Bleeding Heart). Crimson and white. 2 feet. April to July. A well known and valuable plant. Each 50 cents.

Dictamnus fraxinella (Gas Plant). Red. 2 to 3 feet. May and June. Very showy and useful for cutting. Each, 35 cents.

DIGITALIS—The Foxgloves

Digitalis grandiflora. Yellow. 2 to 3 feet. June and July.

" **purpurea** (Foxglove) Purple. 2 to 3 feet. June to July.

var. gloxiniaeflora. White to Pink. 2 to 3 feet. June and July.

var. alba. White. 2 to 3 feet. June and July.

Echinacea purpurea (Cone flower). Reddish-purple. 2 to 4 feet. August and September.

Epilobium angustifolia (Great Willow Herb) Magenta. 3 to 5 feet. June to August.

Erianthus ravennae (Ravenna Grass). 6 feet. August. A stately, hardy grass, very ornamental; the foliage forms graceful clumps from which arise handsome purplish plumes.

Eryngium amethystinum (Sea Holly). Blue. 1 to 3 feet. June to September. A most handsome and hardy plant.

Euphorbia corollata (Spurge). White. 1½ to 2 feet. August.

Festuca glauca (Fescue Grass). 12 inches. June. One of the most handsome and hardy edging plants in existence. Foliage grass-like glaucous blue, tufted and evergreen.

NEW ENGLAND NURSERIES CO.

BEDFORD, MASSACHUSETTS

HARDY HERBACEOUS PERENNIALS (continued)

GLADIOLI

No flowers appeal to the taste of everyone more than the Gladioli. For a continuous bloom plant every two weeks until July 1st. Set bulbs 6 inches apart and 4 inches deep. After frost, lift bulbs and store in a dry place where frost will not reach them. The following named varieties are the prettiest and most satisfactory for garden culture.

America. Conceded to be one of the finest varieties for cutting or bedding ever sent out; color a beautiful soft flesh-pink; orchid-like in its coloring and texture. 10 cents each; 60 cents per dozen; \$4.00 per 100.

Empress of India. Rich velvety dark red with deeper shadings. 10 cents each; 75 cents per dozen; \$5.00 per 100.

Halley. Large open flowers of a delicate salmon pink; very early. 10 cents each; 60 cents per dozen; \$4.50 per 100.

Le Marechal Foch. Very early. Immense flowers of soft pink. Each 25 cents; dozen \$2.50; per hundred \$15.00.

Mrs. Francis King. A striking shade of light scarlet or flame color; one of the most effective. 10 cents each; 60 cents per dozen; \$4.50 per 100.

Peace. Immense pure white flowers with a touch of carmine in the lower petals. These are borne on tall, graceful spikes; a beautiful and exceedingly refined variety. 10 cents each; 60 cents per dozen; \$5.50 per 100.

Yellow Hammer. Pure yellow, lightly marked with red in the throat; a beautiful variety for cutting. 10 cents each; 85 cents per dozen; \$6.50 per 100.

Primulinus Hybrids. (Dwarf). Mixed colors. Dozen, 75 cents; per 100, \$5.50.

New England Mixture. (Best bulbs. Made up of all colors.) Dozen 50 cents; per 100, \$3.50.

Note: For shipment of Gladiolus by mail, add 5 cents per dozen and 15 cents per 100.

SPECIAL OFFER No. 3

15 Old-fashioned Hardy Garden Plants. Price, \$1.50. (By mail, \$1.75)
1 Plant each of 15 unnamed choice varieties. All plants to bloom the first year, and of a selection to furnish flowers all through the season.

NEW ENGLAND NURSERIES CO.

BEDFORD, MASSACHUSETTS

HARDY HERBACEOUS PERENNIALS (continued)

Price: Except where otherwise noted, Each, 25 cents. Dozen, \$2.50; Per 100, \$20.00. (6 Plants of one kind supplied at price per dozen.)

SPECIAL OFFER No. 4

15 best unnamed varieties of hardy Phlox. Price, \$2.00. (By mail, \$2.25.)

1 Plant each of 15 choice sorts, and of sizes to bloom the first season.

Fruit Trees and Small Fruits

The varieties of fruit trees we offer below are such as can be particularly recommended and are best adapted to the climate of New England.

As the soil in our Bedford Nursery is unsuited for the production of good young fruit trees, our stock is grown in Geneva, N. Y., and we firmly believe that our trees are as hardy as can possibly be obtained.

Any variety desired and not listed, we can generally supply from our Geneva, N. Y., Nurseries.

Pruning—Apples, Pears, Cherries, and Plums should at once after planting be pruned back to some extent, and it is generally well to remove from one-half to two-thirds of each branch. This treatment will insure a strong and healthy growth, and materially assist trees in taking hold. Leading Orchardists now recommend the spacing of fruit trees in orchards as follows:

Standard Apples	25 ft. apart
Dwarf Apples	8 ft. "
Standard Pears	15 to 20 ft. "
Sweet Cherries	20 ft. "
Sour Cherries	15 ft. "
Plums	15 ft. "
Quinces	10 ft. "
Peaches	15 ft. "

Number of Trees Required to an Acre

8 feet apart each way.....	680
10 feet apart each way.....	430
15 feet apart each way.....	200
20 feet apart each way.....	110
25 feet apart each way.....	70
30 feet apart each way.....	50
40 feet apart each way.....	27

Note: Our fruit trees are, we believe, as hardy and as well grown as it is possible to supply, and thousands of orchards throughout the country bear witness as to "New England Quality" trees.

We try to have our stock true to name, but as we are human, we may in spite of our best efforts make mistakes, and will always stand ready to replace free, any stock that proves not to be as represented.

It, however, is mutually agreed between all purchasers and ourselves, that we shall not be held liable for any value greater than that paid for the trees.

The New England Nurseries Co.

Apples

Standard Apples. 2 years. 5 to 7 feet high.

Price, Except where otherwise noted. Each, \$1.00. Dozen \$10.00. Per 100, \$85.00.

NEW ENGLAND NURSERIES CO.

BEDFORD, MASSACHUSETTS

FRUIT TREES AND SMALL FRUITS (continued)

Summer Apples (Standard)

- Astrachan.** Free growth; large, roundish; deeply crimson; juicy, rather acid; good; very hardy; highly esteemed on account of its fine appearance, earliness and hardiness. Ripening August.
- Sweet Bough.** Moderate growth; large; pale yellow; tender, juicy, sweet. Very good. August.

AUTUMN APPLES (Standard)

- Fameuse, or Snow.** Vigorous growth; medium; deep crimson; tender, subacid, melting, delicious; very good; hardy. One of the best dessert apples. Ripening November to January.
- Gravenstein.** Vigorous growth; very large; striped; juicy, tender, crisp, rich, subacid; very good. Ripening September and October. Each, \$1.25; dozen, \$12.50; per 100, \$100.00.
- Duchess of Oldenburg.** Vigorous growth. Yellow, streaked with red, juicy and good. September.
- Porter.** Moderate growth; medium to large; yellow; fine grained; sprightly subacid; very good. Ripening September.

WINTER APPLES (Standard)

- Baldwin.** Vigorous growth; large; bright red; crisp, juicy, subacid; good; the most popular and profitable market sort in the East. Ripening in December to March. Each, \$1.25; dozen, \$12.50; per 100, \$100.00.
- Ben Davis.** Vigorous growth; large; striped; moderately juicy; subacid; good; highly esteemed in the West. Ripening December to March.
- Delicious.** Dark red. Fruit large. An excellent variety and good keeper, and therefor one of the most desirable for general culture. Each, \$1.25; dozen \$12.50; per 100 \$100.00.
- Hubbardston.** Free growth; large; striped red and yellow; tender, juicy, rich, slightly subacid; very good. Ripening November and January.
- Jonathan.** Medium growth; red and yellow; tender, juicy and rich; very productive. One of the best for table or market.
- McIntosh Red.** Vigorous growth; handsome; very good; hardy. Ripening November to February. Each, \$1.25; dozen, \$12.50; per 100, \$100.00.
- Northern Spy.** Vigorous growth; large; striped red; tender, juicy, mild, subacid; very good; a fine dessert fruit. Ripening December to June.
- Opalescent.** An annual bearer of beautiful, high-quality fruit. Size large; color light, shading to a very dark crimson, and susceptible to a very high polish, hence its name. Ripening December to March.

NEW ENGLAND NURSERIES CO.

BEDFORD, MASSACHUSETTS

FRUIT TREES AND SMALL FRUITS (continued)

Rhode Island Greening. Vigorous growth; large; green; fine grained; rich, subacid; very good. Ripening December to April.

Roxbury Russet. Free growth; medium; greenish; rich; subacid; good; late keeper. Ripening December to June.

Tolman's Sweet. Free growth; medium; yellow; firm, sweet. Ripening November to April.

Tompkins King, or King of Tompkins County Vigorous growth; large; red, striped; tender, juicy, vinous; very good. Ripening November to January.

Wagner. Dark red and of excellent flavor. An early bearer. This variety, like the Delicious, has all the good qualities of McIntosh Red, but will keep until late in the Spring.

Wealthy. Free growth medium dark red; juicy subacid; good; very hardy. Ripening December to February. Each, \$1.25; dozen, \$12.50; per 100, \$100.00.

DWARF APPLES on Paradise Stock

One and two years old. Each, \$1.00; dozen, \$10.00.

Baldwin	Northern Spy
McIntosh	Red Astrachan
Fameuse or Snow	Gravenstein

CRAB APPLES

Hyslop. (Red) Each, \$1.00; dozen, \$10.00.

Transcendent (Yellow) Each, \$1.00; dozen, \$10.00.

PEARS

2 years old. Each, \$1.25; dozen, \$12.50.
except where noted.

SUMMER PEARS (Standard)

Bartlett. Vigorous growth; large; yellow and red; juicy, buttery, with a rich musky flavor; very good. Ripening September.

Clapp's Favorite. Vigorous growth; very large and handsome; yellow and crimson; melting. buttery, vinous; very good. Ripening August.

AUTUMN PEARS (Standard)

Anjou. Vigorous growth; very large; greenish yellow; melting, buttery, juicy, sprightly, vinous; keeps into mid-winter. November and December.

Bosc. Moderate growth; large; russety; buttery, rich, high flavored; best. Ripening September and October. (True Variety.)

4 to 5 ft. high. Each \$1.50.

NEW ENGLAND NURSERIES CO.

BEDFORD, MASSACHUSETTS

FRUIT TREES AND SMALL FRUITS (continued)

- Louise Bonne.** Vigorous growth; large; yellow and red; melting, buttery, rich; very good. Ripening September and October.
- Seckel.** Moderate growth; medium; brown; juicy, melting and buttery; of the highest flavor. Ripening September to October.
- Sheldon.** Vigorous growth; large; russet and red; melting, rich, delicious; very good. October.
- Lawrence.** Moderate growth; medium to large; golden yellow, melting, pleasant, aromatic; very good; a valuable Winter Pear. Ripening November to December.

DWARF PEARS

The following varieties we can supply on Dwarf or Quince stock:

Price: Each, \$1.00; dozen, \$10.00.

Bartlett. 2 to 3 feet high.

Lawrence. 2 to 3 feet high.

Clapp's Favorite. 2 to 3 feet high.

Seckel. 2 to 3 feet high.

CHERRIES

Note: As Cherry trees are especially difficult to transplant, and as we are desirous that trees furnished by us shall succeed, we earnestly request that planters observe the directions for pruning as given below. Please prune as directed immediately after planting.

Price of Cherry trees: 2 years old. Each, \$1.50; dozen, \$15.00.

BIGARREAU OR SWEET CHERRIES

- Black Tartarian.** Vigorous growth; very large; purplish black; one of the best. Ripening end of June.
- Governor Wood.** Vigorous growth; medium; clear, light red; tender delicious. Ripening end of June.
- Napoleon.** Vigorous growth; very large; pale yellow with red cheek. Firm, juicy and sweet; very good. Ripening first of July.
- Windsor.** Vigorous growth; large; liver colored; very firm, very good. A valuable variety; hardy. Ripening end of July.
- Yellow Spanish.** Vigorous growth; large; pale yellow with red cheek; firm, juicy and delicious; very good. Ripening end of June.

MORELLO OR SOUR CHERRIES

- Early Richmond.** Medium size; dark red; juicy, rich acid flavor. The stone adheres to the stem. One of the most valuable of Sour Cherries.
- Montmorency (Large Montmorency).** A Cherry of the Richmond class, but larger and more solid. A more upright growth, equally hardy, and a heavy cropper. Ripens from seven to ten days later than the Richmond, entirely escaping danger from Spring frost.

NEW ENGLAND NURSERIES CO.

BEDFORD, MASSACHUSETTS

FRUIT TREES AND SMALL FRUITS (continued)

PRUNING OF CHERRY TREES

While all Fruit Trees should at once after transplanting be cut back to some extent, severe cutting back is particularly necessary in the case of Cherry trees, and especially with varieties of Sweet Cherries. Cherry trees are slow in becoming established, and all branches should be cut off to within four or five inches of the stem.

PLUMS

2 years old. Each, \$1.00; dozen, \$10.00.

Bradshaw. A very large, oval, dark violet red; juicy, sweet and good; a valuable market variety.

Abundance (Bhotan). Beautiful lemon-yellow with bright cherry. Has been thoroughly tested, and is highly recommended. August.

Burbank. Large and beautiful, a clear cherry red, with a thin lilac bloom; flesh a deep yellow, very sweet, with a peculiar and very agreeable flavor. Ripens later than Abundance. End of August.

October Purple. Large, round fruit; dark, reddish purple yellow; flesh of most superb quality. Ripens middle of September.

Wickson. Originated by Burbank. A sturdy, upright grower; fruit remarkably handsome, deep maroon red, covered with white bloom; excellent keeper and shipper.

PEACHES

The peach tree requires a well-drained, moderately rich soil. Warm, sandy loam is probably the best. When the trees are first planted, all side branches should be cut back to within one-fourth to one-half inch of the main trunk, and the latter reduced one-third. The following listed varieties which are particularly recommended for the New England climate we offer in No. 1 trees.

Price: Each, \$50 cents; dozen, \$5.00; per 100, \$40.00.

Belle of Georgia. Very large skin white with red cheek; flesh white, firm, and of excellent flavor; fruit uniformly large and showy; free. Very hardy and one of the latest to ripen.

Carman. A new, hardy, rot-proof Peach. Large, round; pale yellow skin and red blush on sunny side; white flesh, sweet flavor.

Champion. Handsome creamy white, with red cheek. It is of large size and of very superior flavor. Ripens about August 1.

Crawford's Early. Very large; yellow; juicy, melting; freestone. Ripening early September.

Crawford's Late. Very large; yellow; juicy; good; freestone. Ripening end of September.

Elberta. An exceedingly large, light-colored yellow Peach, a cross between Crawford's and Chinese Cling; juicy, well flavored; said to be probably the finest yellow freestone in existence; planted in enormous quantities in the Peach growing regions of the South. Ripens early in August.

NEW ENGLAND NURSERIES CO.

BEDFORD, MASSACHUSETTS

FRUIT TREES AND SMALL FRUITS (continued)

Fitzgerald. A chance seedling, found in Ontario, outside of the Peach belt, where it has produced regular crops. The fruit is of very large size, pit very small. This promising new peach is of the Crawford type, but excels that famous variety in size, hardiness and productiveness. Season same as Early Crawford.

Greensboro. The largest and most beautiful colored of all the early Peaches. Of good quality; juicy, freestone, but adheres slightly; ripens perfectly to the seed, and with the Alexander.

QUINCES

First class. 2 years old. Each, \$1.25; dozen \$12.50.

Champion. The fruit is very large, young trees, two years from the bud are often loaded with fruit. Its season is about two weeks later than the Orange.

Orange. Large, roundish, bright golden yellow; cooks quite tender, and is of very excellent flavor. October.

Our Fruit trees being grown under the most severe climatic conditions, can be particularly recommended for hardiness.

Each Dozen 100

English Filbert or Hazel.

Strong bushes, 2 to 3 feet.... .75 7.50

Hardy Native Grapes

Each, 50 cents. Dozen, \$5.00. Per 100, \$30.00.

Black

Concord. Bunch and berry large, round, black, thickly covered with a beautiful bloom; flesh moderately juicy, sweet pulp, quite tender when fully ripe.

Moore's Early. Bunch and berry large, with a blue bloom; quality better than Concord; its size and earliness render it desirable.

Worden. Bunches large, handsome; berries sweet. Ten days earlier than Concord and superior to it in flavor; ripens well and in cold localities.

Red and Reddish Purple

Brighton. Large, handsome and of the best quality. Ripens early.

Catawba. Well-known; highly flavored, but late.

Delaware. Medium or small, but delicious; highly esteemed everywhere.

NEW ENGLAND NURSERIES CO.

BEDFORD, MASSACHUSETTS

FRUIT TREES AND SMALL FRUITS (continued)

White

Niagara. Bunch medium to large; berry large; skin thin but tough; slightly pulpy, tender, sweet, vine vigorous, healthy, and very productive; ripens with Concord. All things considered, probably the most valuable white Grape in cultivation.

Small Fruits

BLACKBERRIES

Strong plants: Dozen, \$1.50. 100, \$6.00.

Erie. Fruit very large, excellent quality. There is no berry that rivals it in combining hardness, large size, earliness and productiveness.

Snyder. A marvel for productiveness; fruit medium size, sweet and melting to the core; extremely hardy.

RASPBERRIES

Price, except where noted, dozen, \$1.50. 100, \$6.00.

Cuthbert. (Queen of the Market). Large dark crimson berries of firm texture, sprightly acid and of excellent quality; a certain cropper, always to be recommended.

St. Regis Everbearing. Red; berries of large size and of a bright crimson color; flavor very sweet and rich; excellent quality. Highly productive and very hardy. Producing abundantly throughout the entire Summer.

Probably the best of all varieties for garden culture.

CURRANTS

Note: Government embargo prevents shipment of Currant or Gooseberries to points outside of Massachusetts or to the following designated localities in Massachusetts, Athol, Barre, Dana, Duxbury, Halifax, Hanover, Hanson, Ipswich, Lee, Lenox, Marshfield, Newburyport, North Andover, Orange, Pembroke, Petersham, Phillipston, Stockbridge, Topsfield and Warwick. It is requested that Black Currants shall not be planted anywhere in Massachusetts.

We offer the following Currants in healthy stock.

Cherry. Fruit of the largest size; deep red, rather acid; short bunches; growth strong, stout, erect; short jointed shoots. Each, 30 cents. Dozen, \$3.00; per 100, \$25.00.

NEW ENGLAND NURSERIES CO.

BEDFORD, MASSACHUSETTS

SMALL FRUITS (continued)

Fay's Prolific. Fruit very large bright red and of excellent flavor; less acid than the Cherry. It has a long stem which admits of rapid picking and is enormously productive. Each, 30 cents. Dozen, \$3.00. Per 100, \$25.00.

Perfection. The color is a beautiful bright red, size as large or larger than Fay's; the clusters averaging longer. The quality is rich, mild, subacid, plenty of pulp, with a few seeds. Each, 35 cents. Dozen, \$3.50, Per 100, \$30.00.

GOOSEBERRIES (See note under Currants)

Price: 35 cents each.

Downing. Whitish green, vigorous and prolific; juicy and good. A fine, reliable berry for general culture.

Houghton. Vigorous and slender grower. Its medium pale red berries are plentiful and good, and it can be depended upon.

ASPARAGUS

Giant Rust-Proof. (Best of all.)

2 years. Per 100, \$2.50; per 1000, \$20.00
1 year. Per 100, 1.50; per 1000, 15.00

RHUBARB

Champagne. A choice new English variety.
Two years old, each, 50 cents; dozen, \$5.00.

Linnaeus (Myatt's). Large early and of good quality.
Two years old, each, 25 cents; dozen, \$2.50.

MEMORANDUM

MEMORANDUM

TO OUR CUSTOMERS

A Word About QUALITY

THE best tree or plant is not necessarily the one which, when it is received by the planter, is the largest or most rugged in appearance, but rather one which has been produced under the most severe climatic conditions. Such trees and plants are ours. Our nurseries are located in one of the coldest sections of New England, and while it requires more time, and is connected with more difficulty to produce nurserystock here than in warmer climates, we can confidently say, that the stock which we produce, is without question as hardy as can be obtained, and such as will give lasting satisfaction to the planter. A tree or plant produced in Bedford, should not only live, but it should thrive wherever it is planted.

As it is our desire to give service, we respectfully invite correspondence pertaining to any problem of interest to planters; as for example, to the best selection of what to plant, care of plants, or arrangement of stock in order to obtain the best effect, etc. Whenever we can be of service, please feel free to call on us.

THE NEW ENGLAND NURSERIES CO.

Bedford, Mass.

Phone: Lexington 274

Brief Hints About Planting

WHEN transplanting trees, shrubs or woody vines, set the plant somewhat deeper than it has been standing in the nursery row,—perhaps on an average of from 3 to 4 inches deeper. All roses, grapevines, currants or gooseberries however, must be set not less than 5 inches deeper. Be sure that the soil is placed firmly around the roots. If the ground is dry, or during warm weather, use water liberally at once after planting, and remember that watering, in order to be effective, must be applied in quantity to penetrate the soil to the depth of from one to two feet. A slight watering is of very little use. One **real thorough** watering, at once after planting is generally sufficient.

Cut back all deciduous stock at once after planting, removing from each branch at least one-third of the growth produced during the previous Summer. The cutting back of a plant helps it to start into new growth. Some trees or shrubs, s.a.f. Ex. Sweet Cherry trees, Roses and others, cannot re-establish themselves after being moved, unless they are pruned severely. They should therefor be cut back **immediately** after being planted. Small plants, s.a. Phlox, Larkspurs, Clematis, Ivies or others, should be set so deeply that the heart or crown of the plant is just under the surface of the soil. It is generally well, before planting, to mix with the soil some stable dressing, bone-meal, tankage, pulverized sheep-manure or other commercial fertilizers, but have it mixed well with the soil and do not use it too liberally,—especially not commercial or chemical fertilizers. Of all hardy and healthy nursery stock sent out during the proper planting seasons, not less than 95 per cent should under fair conditions succeed, but of all requisites, that of pruning or cutting back at once after planting is the most important.
